Online Privacy Considerations
Activities.

IUP GenCyber Camp

1. Watch the *Hot on Your Trail* video with the rest of the class and make a list of all of the places that Liz is sharing information with or are collecting information about Liz.

2. What are the benefits and risks of cookies?
3. In a group (with one or two others) consider how you make sure you create and use secure passwords. Write your tips below. We will share in the larger group in a few minutes.

4. A. In your group consider your school’s cybersecurity practices. Do you have any suggestions on how they can be more secure? Or 4.B. How might you suggest they might best share best practices on safe computing use with students? Be ready to report back to the larger group when the small group sharing has ended.
