

IUP Libraries Living Learning Bulletin Board Award Entries

2015-2016

IUP Libraries and IUP Office of Housing Residential Living and Dining pursue our missions and our institutions' Expected Undergraduate Student Learning Outcomes by developing social learning environments conducive to group or individual scholarly pursuits including the development of information literacy skills. We work collaboratively to encourage students living in the residence halls to take full advantage of library services and resources.

Peer educators in the Office of Housing, Residential Living, and Dining inform IUP students about all the Libraries have to offer through library focused informational displays.

During 2015-2016, to show our appreciation for Community Assistants and Academic Success Mentors' valuable contributions to student learning, IUP Libraries created a series of monthly awards and one annual award for those who have developed creative library-focused bulletin boards for the residence halls.
